

## Type 2 Diabetes Screening Options

No Cost Options	Low Cost Options	Higher Cost Options (Detect other risk factors in addition to diabetes)
American Diabetes Association online or paper risk test.	Fasting or non-fasting blood glucose test-fingerstick* Pricing of \$5 - \$15 plus administration fees (nurses, education)	Blood pressure Pricing for test only \$5 - \$15 per person
National Diabetes Education Program paper risk test.		Total cholesterol** Pricing for test only \$10-\$15 per person
		Complete cholesterol panel** (Total, HDL, LDL, Triglycerides) and glucose test Pricing for test only \$20-\$30 per person

\*Fasting is preferred method of testing.

\*\*According to the American Heart Association, measurements of both HDL and Total cholesterol should be done, but if HDL testing is not available, the total cholesterol still provides some valuable information.

*Several of the above options can be incorporated into annual health fairs. Prices are subject to change. Contact vendors for up to date pricing.*

*The Quality Forum's Workplace-Focused Diabetes Project Team would like to thank Mary Jenny for collecting this information and generously offering to have it included in the toolbox as an example for others.*
